

## NEURO-INTERVENTIONAL RADIOLOGY POSITION

**Job Category:** MD

**Specialty:** Neurology/Neuroradiology/Neurosurgery

**Pacific Neuroscience Institute is seeking a full-time, board-eligible/board-certified Vascular Neurologist with Neuro-Interventional fellowship training, Neuroradiologist with Neuro-Interventional fellowship training or Neurosurgeon with Neuro-Interventional fellowship training. Two-year fellowship required.**

In this role, the service locations include Providence Holy Cross Medical Center, Providence Saint Joseph Medical Center, and Providence Saint John's Health Center. The schedule will include call coverage across multiple sites with outpatient clinic and inpatient consultation. You will join six other NIR physicians and work within our team to provide excellent NIR service and collaborate to optimize Neuro-Interventional performance in each of our Comprehensive Stroke Centers.

Pacific Neuroscience Institute provides a unique combination of highly specialized and experienced medical professionals, with a focus on minimally invasive surgical and interventional techniques, as well

as novel targeted therapies that aim to restore and maintain quality of life.

PNI is also focused on translational research and clinical trials as well as fellowship education and continuing medical education. Our physicians work side by side with our scientists to formulate real-time personalized treatments and therapies for our patients ensuring that they are receiving the highest and most advanced levels of care.

Enjoy a meaningful professional experience and all that beautiful Southern California has to offer from the community! New fellowship graduates are welcome to apply.

Comprehensive Provider Benefits Package:

401K

Medical, Dental, Vision, and Malpractice Insurance

Paid Sick Time, Personal Time Off

CME allowance

**Interested candidates please email CV to:**

### About Pacific Neuroscience Institute

Pacific Neuroscience Institute is devoted to the comprehensive care of patients with a wide spectrum of neurological and cranial disorders including brain; skull base and pituitary tumors; stroke and related neurovascular diseases; adult hydrocephalus; vision, hearing and sinonasal disorders; facial pain syndromes; and movement disorders. Based at Providence Saint John's Health Center in Santa Monica and at Providence Little Company of Mary Medical Center Torrance, PNI has more than 35 physician specialists and researchers collaborating across multiple disciplines including neuro-surgery, neuro-oncology, endocrinology, ear, nose and throat (otolaryngology), stroke and general neurology, neuro-ophthalmology, interventional neuro-radiology, radiation oncology, neuro-anesthesia and neuro-pathology. Our team approach ensures each patient receives the comprehensive attention required for successful treatment and recovery. In collaboration with Saint John's Cancer Institute, our PNI team of neuroscientists is advancing future treatments in neuro-oncology and stroke with leading-edge research and clinical trials.
