

PACIFIC BRAIN TUMOR CENTER

AT PACIFIC NEUROSCIENCE INSTITUTESM

SECURECLOUD IMAGE UPLOAD INSTRUCTIONS

Dear Patient,

Please follow the instructions below to transfer your medical images to your physician at Pacific Brain Tumor Center via secureCLOUD.

secureCLOUD requires the most recent versions of Adobe Flash and Java which can be downloaded at adobe.com/flash and java.com respectively.

1. In order to upload your images, you will need access to the internet and a current web browser installed on your computer.
2. Please download the above software to your computer. It should take only a few seconds.
3. Navigate to the following site using this link:
<https://upload.securerad.com/upload/index-jwci.php>
4. You may be prompted to allow the application to run on your computer. Click to accept terms and hit run.
5. Insert your image disk or thumbdrive into your computer and open the file directory.
6. Drag and drop the file onto the jumploader icon.
7. Your Images will begin to upload. It should only take 2-3 minutes depending on your internet connection speed. Your physician will be notified when your images are received.

Thank you.
